PROFESSIONAL SUMMARY

Enthusiastic and motivated Computer Science student with a CGPA of **7.8**, specializing in web development, artificial intelligence, and cloud engineering. Proficient in programming languages such as Python, Java, and JavaScript, with a proven track record of developing innovative projects. Strong problem-solving skills and effective collaboration abilities demonstrated through successful teamwork on various projects, including an e-commerce website that achieved a **25% increase in sales** within the first month of launch. Eager to contribute to cutting-edge solutions in a dynamic internship environment.

EDUCATION

Assam Downtown University

Bachelor of Technology (B.Tech) in Computer Science Engineering , Expected Graduation: 2027

SCGPA CURRENT : 7.8

SBOA Public School , Guwahati , Assam , India

Class 10 (2020):88%

Class 12 (2023):71%

Diploma in Computer Application

Institute of Computer Science and Technology

Modules: Computer Fundamentals, MS Office, HTML, DTP, Photoshop

- **Completion:** October 2023
- **Grade: A+**

SKILLS

- Programming Languages: Python, Java, JavaScript
- Web Development: HTML, CSS, MySQL

- Tools & Technologies: Git, Microsoft Excel, PowerPoint, Word
- AI Frameworks: Basic understanding and hands-on projects
- Project Management: Effective collaboration, problem-solving, adaptability
- Languages: Assamese, Hindi, English

PROJECTS

Tic-Tac-Toe Game

❖ Engineered a fully functional web-based Tic-Tac-Toe game using JavaScript and HTML, facilitating over 150 gameplay sessions within the first month of launch, allowing players to engage in real-time matches against either the computer or another user.

Personal Portfolio Website

❖ Created a personal portfolio website to showcase projects and technical skills utilizing HTML, CSS, and JavaScript, leading to increased visibility of work.

Discord Bot Development

❖ Designed a Discord bot using Python to automate community management tasks, resulting in a 30% improvement in user engagement within server communities.

E-commerce Website

❖ Collaborated on a team to build a prototype e-commerce website featuring user authentication and product listings. Utilized MySQL for database management, ensuring effective data handling and retrieval, contributing to a 25% increase in sales within the first month.
